REPORT OF FULLER PUBLIC LIBRARY

We submit herewith report of Fuller Public Library for the year ending January 31, 1925.

It is with deep regret that we record the death of Mrs. Ada H. Brown, librarian for over 20 years.

Devoted to her work, she endeared herself to all patrons of the library, especially to the children whom she delighted to assist in their reading.

During the year, our rent has been more than doubled and a larger appropriation must be made if we are to maintain the library. Rooms on the ground floor being available at slight additional cost, the trustees believed it to be to the advantage of patrons to accept this opportunity and have moved the volumes to these new rooms.

TOWN SCHOOL REPORT

To the School Board of the Hillsboro Town District:—

The report of the Superintendent of Schools for the year 1923-1924 is hereby respectfully submitted.

Miss Edythe Crooker, Miss Susan Pierce and Mrs. Belle Bennett returned to the positions they held the previous year, at the Upper Village, Lower Village, and Bear Hill respectively. During the year Mrs. Bennett resigned and Mrs. Marion Evans succeeded her. Mrs. Murdo moved from the Center and succeeded Miss Dole at the Flat School. Mrs. Georgianna Severance came to the Merrill School from a Deering school at a slight increase in salary. Miss Rowena Wade succeeded Miss Dolly Crane at the Goodell School, and Miss Ruth Brown followed Mrs. Murdo at the Center.

The State Board has three forms of certification of its teachers, one of which a person must possess in order to hold a regular teaching position. The lowest form is a PERMIT, given for a limited time, to one not meeting the minimum requirements, but who for one reason or another, is the best available candidate for a given position. The next higher form is a LICENSE, given to those who meet the minimum requirements, but who are expected to fit themselves to receive the highest form of certification. The highest form is the CERTIFICATE, given to those who meet all the requirements. Of the eight who taught for us this year, one holds a certificate, six had licenses, and one was given a permit.

Mrs. Bennett, Miss Pierce and Mrs. Severance have attended summer Normal sessions, Miss Brown attended Keene Normal School, Miss Crooker, the Dewey Training School, Mrs. Wade was graduated from Iowa State Col-

lege, and an Illinois Normal School, and Mrs. Evans was graduated from New Hampshire University. Miss Brown was the only inexperienced teacher, the others having had teaching experience ranging from one to 24 years, averaging $7\frac{1}{2}$ years. Of this experience 73% was gained in this district.

The teachers' payroll amounted to \$4,920. Miss Brown, because of her inexperience receives \$600, and the others each receive \$720 per year.

The enrollment by schools was as follows:—Lower Village 35, Upper Village 26, Merrill 24, Flat 14, Goodell 12, Center 11 and Bear Hill 9. This makes a total of 131, but pupils changed from one school to another, counted twice in the above statement, leaving a total of 127. The grade enrollment was:—1st. grade 25, 2nd. grade 18, 3rd. grade 24, 4th. grade 15, 5th. grade 13, 6th. grade 10, 7th. grade 10, 8th. grade 12.

Among these 127 children there were 125 cases of tardiness, which is a good record for the district as a whole, being less than one case per pupil. The two extreme cases, however, must be mentioned. There were no cases of tardiness for the whole year at the Bear Hill School. The children and parents as well as the teacher are to be congratulated for this perfect record. On the other hand, one third of all the cases, 42, were at the Goodell School. This was $3\frac{1}{2}$ cases per pupil and is a very poor record. The percent of attendance was good, varying from 89% at the Lower Village to 96% at the Flat and Bear Hill.

The Honor Roll of perfect attendance contains the names of four pupils, Miss Evelyn Merrill, of the Merrill School, Miss Alice Ryley and Leonard Ryley of the Bear Hill School, and Lewis Cutter of the Lower Village.

The Medical Examiner's Report shows a large number of cases of ill health. Thirty cases of adenoids and hypertrophied tonsils, 29 cases of defective teeth,

and 14 with defective vision. That one fourth of our children should have adenoids, hypertrophied tonsils and defective teeth, and one ninth defective vision, is a serious condition, which should have the immediate attention of parents. As far as we know only six of these cases have been treated.

The school records show five visits made by members of the school board, and 107 by the Supt., averaging slightly more than 15 visits to each teacher. 260 visits were made by parents and others, ranging from 22 at the Goodell School to 47 at the Merrill and Flat Schools.

The Maine Club of Hillsboro gave three prizes for excellence in Arithmetic to pupils of the Hillsboro Town and the Hillsboro Special School Districts and the first the second prizes were won by pupils from this district. Frances Craige received the first prize and Dallas Cutter, the second prize.

The Graduation Exercises were held at 2 P. M., Thursday June 12, at Fuller Hall with the following program:—

Essay, "Growth of the United States"	Julius Wilt
Essay, "A Great Orator of the Granite State"	Frances Craige

Extensive repairs, in accordance with suggestions made by the Deputy Commissioner of Education, were made at the Flat School, and it is expected that similar improvements are to be made at other schools. Extensive repairs were also made at the Goodell School, and minor repairs at other schools.

Standard Tests were given with gratifying results. Although, as would be expected, we have some children who fell below the standard, yet the average in every grade was equal to or above the Standard.

Again we urge parents and friends to give the schools their support by frequent visits, and we thank the school board and teachers for their constant work and unfailing interest.

Respectfully submitted,

A. A. HOLDEN,

Supt. of Schools.

SPECIAL SCHOOL DISTRICT

We present herewith reports for school year ending June 30th, 1924.

At the annual meeting of March 1924, it was voted that the District borrow a sum of money not to exceed \$75,000 for the construction of a new High School building. As this sum is more than the amount allowed by law, a bill has been introduced into the Legislature authorizing the District to borrow this amount.

The following appropriations are recommended:

For High School	\$6,000 00
For Elementary Schools	6,250 00
For Repairs	439 00
For Interest on debt	150 00
For State Per Capita Tax	486 00
For Text Books	500 00
For Scholars' supplies	350 00
For District officers	125 00
	<hr/>
	\$14,300 00

A new toilet equipment is absolutely necessary, which has slightly increased the amount needed for repairs.

If the Authorization bill passes the Legislature, a sum sufficient to cover interest on any bonds which may be issued, will need be appropriated.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Hillsboro Special District School Board:—

The annual report of the Superintendent of Schools for the year 1923-1924 is herewith respectfully submitted:—

Three of our eleven teachers began their work with us this year. Harold C. Bowley, a University of Vermont graduate, with three years' teaching experience, succeeded Stuart M. Stoke as Headmaster, Mr. Stoke leaving to take graduate work at Harvard. Miss Edith L. Millet, an Oberlin graduate with no experience as a teacher, followed Miss Mary J. Sanderson; and Miss Gertrude Sampson, of the Plymouth Normal School, who had substituted for Miss Hilda Chilson, succeeded her as head of the Domestic Science Department. The other members of the school faculty are the same as last year.

All our grade teachers have the highest form of recognition from the State Dept. of Education, certificates, while our high school teachers have temporary licenses. This is not because they are not so well educated, but because, having been here a much shorter time, they have not yet taken examinations for certificates. Three, at least, of the high school teachers are looking forward to receiving certificates soon.

The average experience of our high school teachers is three years, with an average of less than a year with us, while our grade teachers have an average experience of 16 years, with 10 years in this school. This long term of office has had a good effect on the work of our pupils, as was shown by some state wide tests to be mentioned later.

We have a total enrollment of 285, 89 of whom are

in the high school. Ten years ago when 9% of the school children in New Hampshire were in high schools, 29% of ours were in our high school, and this year an even higher percent, 31% are found there. Also, 76% of the eighth grade graduates entered high school and 65% of our high school graduates continued their education.

The percent of attendance was high, being 96.4%. There were 190 cases of tardiness among the 285 pupils, about 2-3 of a case per pupil. That is satisfactory, as 3 cases per pupil is considered the limit beyond which we should not pass.

Thirty-three pupils have their names on the HONOR ROLL of perfect attendance. Their names follow:—

The records show 11 visits from members of the School Board, and 314 by parents and others. The Superintendent made 239 visits, slightly more than 26 visits per teacher.

The number of awards and prizes given to our pupils for excellence along certain lines of work has increased by one this year. The subject of the Prize Essays open to pupils of the High School, was "Better Homes in America." The prize winners were:—

Hazel Halladay, First Prize.

Marian Brown, Second Prize.

Katherine Wadleigh, Third Prize.

The Scholarship was awarded to Marjorie A. Holden, who has entered the University of Michigan. The new prize was given by the Maine Club of Hillsboro, and consisted of three prizes, of \$5, \$2, \$1 respectively, and was awarded for excellence in Arithmetic among pupils of the eighth grade in the Hillsboro Town and the Hillsboro Special Districts. The first two prizes went to pupils in the town district, and the third prize was awarded to Norman Murdough in our eighth grade.

Miss Gile followed up the medical examinations very carefully, and the report shows too large a number of certain defects. There were 137 cases of defective teeth, 88 cases of hypertrophied tonsils, 21 cases of defective vision and 78 cases of enlarged glands. The last

item is unusually large and it would be well to find out the cause of its frequency.

Your superintendent has given each year a series of Standard Tests, in every case with gratifying results, and he was pleased when the State Dept. of Education decided to give certain standard tests in fundamentals to the tenth grade in all high schools in the State. The tests were given in January, and the results in our school were satisfactory, but it was thought that the average for the state as a whole was too low, and it was announced that similar tests would be given in June. We were advised to give special drill in the fundamentals between January and June. We did very little extra drilling for the second test, as it was a part of our regular procedure. However, our pupils did better in June than in January.

The figures below refer to Addition, Subtraction, Multiplication and Division, in that order, in each case. There were given, 19, 15, 20, 15. Total 69 examples. We scored 18.2, 14.7, 19.1, 14. Total 66. Score for all schools 16.9, 13.8, 15.8, 11.3. Total 57.8.

From this it is easily seen that our pupils did better than the average for the State as a whole, and the sum of our points, 66, was better than that of any other school.

The results of the June tests follows:—
We scored 19, 15, 20, 14.6. Total 68.6.
Score for all schools 18, 14.4, 17.4, 12.8. Total 62.6.

This time, also we exceeded the state score in each subject, and our total of 68.6 was again the highest in the state. What we have said refers to Arithmetic. Tests were also given in Spelling, and although we did better than the average for the State, we did not lead in that subject. 97 schools took the tests, and four schools stood higher in January and nine higher in June. However, we think another chance would show improvement there.

The Grammar School graduation exercises were held on Friday, June 13, in the High School room, the Honor pupils being Velna Kelso, Margaret Stinson and William Proctor. The High School graduation exercises were held in Child's Opera House on Thursday evening June 12, Marjorie Holden being the Valedictorian, and Lester Landon the Salutatorian. Some felt that, as the high school classes increased in size, it was not best to have all members take part in the exercises, and at the request of the class the matter was taken up by the Board. After consideration and conference, it was decided that the School Board and Supt., the Faculty and the Class should each select two to take part in the exercises. The Board and Supt. decided that whoever were the two highest in rank for the four years should be their choice, the class selected one for the Prophecy and one for the Will, and the Faculty selected the remaining two. It seemed to be the general opinion that it was well to limit the number of parts, and the method by which it was done may or may not have been the best way, but it seemed to be to those who considered the matter at that time.

Two years ago we spoke of the small number of pupils taking Latin. We are glad to say that the number has increased. We also mentioned that there were but few visitors to the High School. In this respect also there has been an improvement, as two years ago there were but 12 visitors at the High School, while this year there were 86.

Visitors are always welcome. Your presence is an encouragement.

Respectfully submitted,

A. A. HOLDEN,
Supt. of Schools.
